Corey S. Powell, Editor in Chief:
Discover Magazine
90 5th Ave. 11th fl.
New York, N.Y. 10011

Dear Mr. Powell:

Re: **Global Warming**: A possible, alternative viewpoint

This letter will be sent to both **Popular Science** and **Discover Magazine** editors! I have subscribed to both for many, many years. I feel that this topic is contemporary and very important to the welfare of the United States of America....world?

My background in the sciences, including a short stint as **Chairman of the Passaic County Energy Commission, New Jersey** and my possessing **(2) Patents, [Video Telephone], [Hybrid Solar Heater]**, would qualify me, as an expert in Energy. Global Warming, in my view, is inextricably interwoven with Energy generation!

If you would like to examine my document, which suggests among other things, that **Global Warming** is **NOT** entirely as **bad**, as uninformed alarmists have trumpeted, please let me know! I will send you the **(20)** Pages, behind this revelation (via E Mail or U.S. Mail)!

You may find more information about me, than you will ever need, including Patent disclosures, (directly from the Patent Office), alongwith **ALL** Patent numbers, in **Google..** Just search **Cifaldi, Carmine**
