

**August 5, 2010**

**Dear Tim**

**Yes I AM signed in to Facebook.**

**I have NOW requested to have me signed in your Facebook, as your friend!**

**I do NOT usually go in and look for people, but I DO respond to all friends and relatives, who contact me, through it.**

**I spend MOST of my computer time, (about 3 hours/day), composing scientific articles, (over 100), giving MY opinion, on various subjects,**

**For Example:**

**“Asteroid deflection” (Using an Electron Gun Proton Beam)**

**“Education” - A book I authored on education of the masses, [“The Ideal Educational System, Two Teachers in Every Classroom (TTEC)”].**

**“Television Tubes” A book I authored, on a comprehensive document, (“How to Manufacture a Black & White Picture Tube”), [ I believe I know more about this subject, than any other person in the world]! { Helen gives me heck whenever I say this---But my answer always is, but, it’s true!}**

**“Global Warming” (Do NOT Believe the nonsense, the world is heating up)**

**“Atomic Energy”(In less than 150 years there will be no more uranium left)**

**“Blu-Ray Genesis” [High Definition Television] (and Carmine Cifaldi’s [4-13-1928 - my birth date], part in the development)**

**“Sky Wind Farms”, using the value of the Double-Quadruple Principle), (I have searched everywhere to find out where that principle came from, but all signs I have found to date, refers to MY definition- in Google, Yahoo etc.)**

**“Swift Water Rescue” (People who get caught in floods/water-accidents)**

**“Tumor Killer” (using Microwaves to destroy Cancer Tumors)**

**“Ionic Conduction” (your micro-wave oven) .... It might interest you!**

Basically, all are contained on my Website **Clik here** [www.cifaldi.org](http://www.cifaldi.org)

All articles I composed, are in ordinary lay-man’s language, so even though the topic sounds mysterious, or science hocus-pocus, I explained it, so anyone could understand it. (I think/HOPE).

I hope you get a chance to look at my website homepage. ( it IS listed in ALL **(26)** Search Engines, such as: Google, Yahoo, Bing, Clusty, Firefox, Lycos, etc.

The website contains all the **100+** topics, as well as many pictures also. But, very few, which would have meaning to you, ... except they pretty much show Helen’s & my life together!

Lastly, I spent a couple of years investigating possible codes in the Jewish Bible, relative to me and mine! I guess, I will have to revisit the subject and include the Bruno’s and More’s therein!

Lots of love to all ..... from the Cifaldi family!

**Carmine & Helen**

**Ps.**

I also trade-marked (invented) a way to add to a book to make a correction or an updating to it, that is already published. It is called the **“LIVING BOOK!** Believe me... it comes in handy... to correct all my mistakes!

**cc**
