Popular Science

Mr. Mark Jannot, Sr. Editor:

Does any of these subjects, have any interest for Popular Science/yourself?

Double-Quadruple Principle (DQP)

http://www.cifaldi.org/files/Double%20Quadruple%20Principle%20_D%20Q%20P_%20%20Explantion%20Jan%2017,%202009.pdf

Author: The (DQP) applies to many different disciplines, including the formation of the picture on T.V. Tubes, including the broadcasting T.V. signals over the air;the electrical output of wind-generators and more. [as you will see, in the (DQP) paper I wrote].

Global Warming/Oil Crises (An alternative view to global Warming)

<http://www.cifaldi.org/files/Global%20Warming%20&%20Oil%20Crises%2011-22-2008.pdf>

Author:My view is that NATURE knows better than man, what it must do, to keep humanity alive! The world population, is increasing by 92 Million people EVERY YEAR!

Blu-Ray Genesis

<http://www.cifaldi.org/files/Blu-Ray%20DVD%20Genesis-System.pdf>

Author:Look and see that I had a partin developing the Blu-Ray DVD System!

TTEC 92 Page The Ideal Educational System/Two Teachers in Every Classroom

<http://www.cifaldi.org/files/TTEC%2092%20PAGE%20UPDATE%202-15-09.pdf>

Essentially, this is an update of my book...The Ideal Educational System

Yours truly,

Carmine Cifaldi www.cifaldi.org
