To Whom it May Concern:

Enclosed herewith please find my book, © 1978 **The Ideal Educational System/Two Teachers in Every Classroom (TTEC)**.

With all due respect, this book **SHOWS** what the future of Education **WILL** look like. It tells, step by step, **why, how, when, where**, the system was born.

The book also reveals many newspaper articles, written by reporters, learned people, and members of academia, which show dates, (**inch by inch**), their creeping steps, towards the use of my system.

Unfortunately, China has recently taken a **GIANT** step towards a **TTEC-like** Educational system in the **Philippines**.

The **Chinese** have granted a “**concessionary loan**” of **500 Million Dollars**, to the **Philippine Government** to pay to a **Chinese** company, for the implementation of their system, [**CYBER EDUCATION PROJECT (CEP)**].

See the **Addendum** herein at Pages #**117** to #**123**, which compares the **Chinese CEP** to my **TTEC**. It graphically points out (**13** points) of similarities and differences relative to each other, **500 Million Dollars** worth ! ? ! **W O W !**

While I am an unknown person, and **NOT** a member of academia, the fact that the **Philippines** are investing (rightly so), a starting investment of **½ Billion Dollars**, for a system **NOT** quite as good

as **TTEC**, lends important credibility to my claims/system, as written in my Book.

NOTE the copyright date of the original conception ...

Since I am **NOT** affiliated with any publishing company, at this time, I have **NO** marketing plan with which to promote my book. I would look for direction from:

#1 someone/company, who has **READ** the book and believes that it **IS** **the BEST educational system ever devised!**

#2 Someone skilled or competent enough, to let the authorities/academia, educational leaders/public know, that this is the **BEST** system to educate the masses.

Very importantly, it will seriously **reduce the tax burden** on the people, besides many many, other fringe benefits, (as elucidated in the Book) !

The **ISBN** number is **978-0-8059-7629-8**. There is a suggested retail price of **\$14.00** (printed on the cover). I believe the sales price is **NOT** unreasonable.

I have printed, and have, already in my possession, (March 3, 2008), about **(175)** finished copies, which may be shipped as quickly as might be required.

The Book cover **IS** Bar-coded. The title **DOES** appear on the spine. Since this is a self-published book, I have **NO** wholesaler **NOR** marketing plans, in place at this time.

I also feel, that it is a **very easy ... read ... !** There are few paragraphs, (if any), longer than **(6)** sentences. There are **NO** unexplainable, daunting formulae, contained therein, **NOR** technical wording, to plague prospective readers!

Humbly written: Last but **NOT** least. At **Barnes & Noble's** sole discretion, it might be found, that **Barnes & Noble** has assisted, in the dissemination of, one of the most important books ever written, by a **citizen of the United States !**

Sincerely written,
